- Content Strategy and Planning
- Content Creation/Writing
- Copywriting
- Editing & Proofreading
- Project Coordination
- Research & Analysis
- Brand Management
- Social Media Marketing
- Analytics & Insights
- Creative Problem Solving
- Adaptability/Flexibility
- Time Management
- Effective Communication
- Team Collaboration

EDUCATION

KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY

Computer Science Engineering
2022-2026

EXPERIENCE

• Content Lead:

KIIT Robotics Society - 2023 - Present

• Social Volunteer

NSS Target JEE: 2023- Present

PREVIOUS WORK

• Internship Experience: [LINK](#)

Content Writer at Cogent IBS – I was responsible for crafting engaging blogs and compelling podcast scripts on various topics. My role involved conducting in-depth research, ensuring clarity, and delivering content that resonated with the target audience.

• Full Stack Project: [LINK](#)

Developed a full-stack Invoice Processing System using React.js, Node.js, Express.js, and MongoDB to automate invoice handling and reduce manual effort. Integrated Tesseract.js for OCR-based data extraction from various invoice formats (PDF, JPEG, PNG), with built-in validation and error detection for accuracy. Implemented real-time status tracking, a user-friendly dashboard, and secure user authentication using JWT to enhance workflow automation and data integrity.

• Industry Project: [LINK](#)

Successfully completed Intel Unnati Industrial Training 2024 in Knowledge Representation and Insights Generation using structured datasets, under the guidance of Navendu Kar.

ADDITIONAL

- **Go for Gold contest in iAspire:** Certificate of Completion for participating in the Go for Gold contest in iAspire
- **Certificate on Successful Completion by DevTown of Backend Web Development using JavaScript, Node.js & Express:** Certificate of Successful Completion in Backend Web Development (JavaScript, Node.js & Express) by DevTown.
